

BUILD A BIRDHOUSE

For the Fair Lawn Arboretum & Bird Sanctuary

The Arboretum is in need of birdhouses to encourage nesting. Here is the opportunity for residents to be creative and build a birdhouse. The design and color is up to you, the opening should be 1" to no larger than 1 1/2" to keep out starlings and squirrels.

Materials used for the birdhouse should be able to withstand year round weather conditions and have a chain or rope attached for hanging. Houses cannot be nailed to trees. There is no limit to how many can be submitted.

This is not a competition.

Deadline: June 1, 2013

Bring your finished birdhouse(s) to the Arboretum, located on Fair Lawn Ave. between Radburn Rd. and Well Dr. on June 1, 2013 between 10:00 a.m. to noon

Refreshments

Sponsored by the Fair Lawn Shade Tree Council
