

WORK SESSION OF MARCH 18, 2014

Deputy Mayor Lefkowitz called the meeting to order at 7:30 p.m.

PRESENT: Deputy Mayors Dunay and Lefkowitz, Councilmembers Peluso and Swain.

ABSENT: Mayor Cosgrove

ALSO PRESENT: Manager Van Kruijning, Municipal Clerk/Deputy Manager Kwasniewski and Attorney Mondello.

COUNCIL LIAISON REPORTS

Councilmember Swain stated that Phyllis Weglein, a long time member of the Library Board, passed away yesterday. She truly served the community.

She and Mayor Cosgrove attended the St. Patrick's Day Parade at St. Anne's School last Friday. The children performed their Irish dances despite the wind and chilly temperature. She and Councilmember Peluso attended the brunch hosted by the American Muslim Union, which provided an opportunity for people to come together and understand the Muslim community. Several Police Directors, Senator Corey Booker and Congressman Bill Pascrell were present and County Executive Donovan was a speaker. The event was well attended.

The Arts Council is ready to display the photographs from their contest and Jane Spindel will be contacting Tim Murphy to see if they can set up a display at the Library. Twelve pictures will be included in next year's Borough calendar. They would like to participate in the June 8th Street Fair and distribute book marks with the Arts Council logo. They wondered if the Arts Council could become part of the Fair Lawn Arts Association, which is a 501(c)3. Attorney Mondello stated that he will look into it and get back to her.

Councilmember Swain met with Manager Van Kruijning, Superintendent Graff and Assistant Superintendent Homa to discuss the "Splash and Dash", which will be held in August for Fair Lawn residents only. Children can use the summer to train for this event, which is a swim and a run. They will discuss this further when the Green Team meets tomorrow.

She attended the ADA Committee meeting last week and there was a check presentation for the playground. The Committee discussed the vacant property at Campbell Road that is owned by the Borough. The guest speaker was Lou Weiss, who presented a preliminary sketch prepared by an architect who is a member of Habitat for Humanity. The drawing depicted a one building development with four independent units. Instead of putting the property up for auction again, the

Committee wondered if the Borough would donate it to an organization such as Habitat for Humanity or United Way for the development of special needs housing. The Committee would like to contact the organizations and research this further. Attorney Mondello felt they may be able to get some COAH credits.

Councilmember Peluso did not object to the Committee researching this further, but he would want more information before making any final decisions. Deputy Mayor Dunay inquired what the Borough's asking price was. Councilmember Peluso explained that originally there were two properties auctioned at \$175,000 each but the price was reduced to \$150,000. Municipal Clerk/Deputy Manager Kwasniewski stated that the Borough contacted the contiguous property owners first, but there were no responses. They were supposed to auction the property again after the first of the year, but when Councilmember Swain mentioned this idea previously she held off. They were successful in stopping encroachments.

Councilmember Swain stated that if the property was turned over to an outside organization it would go back on the tax role. Attorney Mondello stated that it depended on the not-for-profit, as religious and other institutions don't pay taxes. The developer of the Kem property will be paying them in lieu of taxes. Councilmember Swain stated that if they find the property is not conducive to such a design it can go back to auction.

There was consensus to allow the ADA Committee to explore the use of the Campbell Road property for special needs housing.

Councilmember Peluso reported that he and Manager Van Kruijning attended the BIC meeting and several members are joining the EDC. The American Muslim brunch was very nice and very informative.

He concluded by stating that the chairperson of the Community Garden has resigned, but two new residents are interested in joining the Committee and serving as co-chairs. They have submitted their Citizen Leadership forms for consideration.

Deputy Mayor Dunay reported that the Environmental Commission hosted a presentation by the CPG Group, which is advancing a plan for cleaning the Passaic River. The Environmental Commission will be applying to their grant program. They have ideas on how to prevent runoff, which will ultimately protect the River environment.

The Commission is very interested in a Storm Drain Updating Program, which involves more modern storm drains with smaller holes that prevent leaves and other object from entering the River. The current policy only updates storm drains during road repaving.

They also wondered about having some sort of special facility to catch the water used to wash Recycling vehicles, which contains dirt, soap and pollutants, and prevent it from running off into the sewer system and ultimately the River. A third idea had to do with impervious pavement around Memorial Pool.

He attended the Property Maintenance Committee meeting. Manager Van Kruningen was the guest speaker and the members appreciated his thoughtful presentation. The Committee inquired about enforcement of signage that covers too much of the window, which primarily occurs at businesses on River Road. Enforcement falls under the Zoning Board's jurisdiction. An alternate solution could be the RRIC or the Chamber of Commerce making the offending businesses aware there is an issue rather than sending Assistant Zoning Officer Peck.

The Committee also discussed sidewalks that have raised slabs due to tree roots. Currently residents have to repair the sidewalks only if the house is going to be sold and the Committee wondered if this could be re-evaluated. He suggested placing this on an upcoming Work Session agenda. The Committee expressed concern about homes without house numbers and residents who continuously keep their garbage cans in front of their house. The Committee has been riding around town trying to identify offenders.

The Committee is looking into incentives and ways to publicize the tree planting program offered by the Borough. He suggested they reach out to the Shade Tree Commission and work together. He also suggested the Committee identify areas and public places where additional trees could be planted. The Committee asked if they could have a petty cash fund for certificates and other small items. They also inquired about getting some type of ID badge that would indicate they were members of the Property Maintenance Committee when they have to confront offenders. Manager Van Kruningen stated that was the responsibility of the Property Maintenance Officer. Municipal Clerk/Deputy Manager Kwasniewski stated during the past 20 years prior Councils have discussed not allowing garbage cans in front of homes, but none expressed interest in regulating this as some residents have no other options.

Deputy Mayor Lefkowitz thanked Councilmember Swain and Councilmember Peluso for attending the American Muslim Breakfast, which she had planned on attending but she got sick. The program seemed very interesting. The Alliance for Substance Abuse Prevention did not meet and the Open Space Committee was meeting on Monday. The Planning Board held its first Master Plan hearing. The Planner presented an overview of the Master Plan at the beginning of the hearing and another hearing will be held on April 7th. Everyone is welcome to attend.

She concluded by stating that she received information from Health Officer Wagner regarding an "Ask the Professional" Seminar on March 20th at 8:00 p.m. An Introduction to the Basics of Cognitive Behavior Therapy and Dialectical Therapy will be presented by Sarah Schleifer, M.S.S.W.

REVIEW OF TENTATIVE AGENDA

Municipal Clerk/Deputy Manager Kwasniewski stated that they need to re-introduce the Cap Bank Ordinance, as CFO Palermo realized the calculations were incorrect. The ordinance will be introduced on Tuesday and adopted on the same night as the Budget, which will be on April 8th pending State approval.

Councilmember Swain asked what the changes were. Manager Van Kruiningen stated there was a reference to calendar year 2013 instead of 2014. Additionally the percentage should read 3% and not 3.5%, so the overall monetary amount was different. Municipal Clerk/Deputy Manager Kwasniewski stated that the changes will be ready for the next meeting. It was supposed to be just over \$1 million and it ended up as \$1.2 million.

Councilmember Swain asked about the Ordinance amending Schedule A of River Road Improvement District. Municipal Clerk/Deputy Manager Kwasniewski explained that since the Hadco and Kem properties are now owned by the Borough, they must be removed from the list of ratables and transferred to exempt. Assessor Henderson has done that on the Tax books but it also needs to be done for the RRIC. Attorney Mondello stated that there is a developer's fee in lieu of taxes, which comes up higher. River Road will no longer be collecting their assessment.

SELF-STORAGE/U-HAUL FACILITY BEHIND ARCADIA ROAD HOMES UPDATE

Manager Van Kruiningen stated that Attorney Rosenberg emailed an update stating the matter was concluded on March 3, 2014. Final summations will be presented to the Board on April 7th, at which time a vote will be taken. He confirmed that the Council, regardless of the decision, would not be pursuing this matter further. Attorney Rosenberg was advised of the same.

Deputy Mayor Lefkowitz stated they have done everything possible to this point. It is up to the residents if they want to pursue it. Attorney Mondello stated that the Borough has provided a great record.

There was consensus from the Council not to proceed any further with this matter, regardless of the outcome.

NON-BOROUGH SPONSORED EVENTS

Manager Van Kruijning stated he was submitting a second draft of the policy regarding special events, which incorporated Councilmember Peluso's suggestions. He recommended the policy become effective September 1, 2014.

Councilmember Peluso thanked Manager Van Kruijning for drafting the policy, which would apply to charity runs, carnivals and other events that cost the Borough overtime expenses. It will require organizations to pay a 25% fee towards the Borough's expenses. He thought the policy should begin in 2015. Manager Van Kruijning clarified that if the Borough is a sponsor or co-sponsor there is no fee.

Deputy Mayor Lefkowitz asked what the maximum cost to the Borough has been for an event. Manager Van Kruijning stated the average cost was \$800 to \$1,200 per event, depending on the number of personnel involved. Deputy Mayor Lefkowitz thought that a fee of \$250 for an event that cost \$1,000 seemed reasonable, although it could end up being 50% of an organization's profits if they only make \$500. Attorney Mondello reminded them that a waiver option is available. Manager Van Kruijning stated they were only using a percentage fee but most municipalities request full reimbursement for all services and expenses.

Deputy Mayor Lefkowitz suggested making the provision generic, such as a 25% fee but not to exceed x amount of their revenue. Councilmember Swain stated the purpose was to alert organizations that going forward there would be this expense. When the Manager gives them an estimate as to the costs involved, they can rethink the event to see if the anticipated fundraising makes it worth proceeding.

There was consensus to make the policy effective January 1, 2015.

Manager Van Kruijning suggested the Council begin notifying the organizations they are involved with about this policy. Deputy Mayor Lefkowitz asked if there was a list of regularly scheduled events. Manager Van Kruijning stated that the Sunrise Rotary 5K Run was the first event. Deputy Mayor Lefkowitz suggested that Manager Van Kruijning send a letter to the organizations that hold events. Manager Van Kruijning stated that he would send a letter to the Chamber regarding street fairs and other organizations so that they have a courtesy notice.

FAIR LAWN AVENUE AND SADDLE RIVER ROAD PEDESTRIAN COUNT DOWN SIGNAL

Manager Van Kruijning stated they first discussed this on January 20, 2012. If the Borough takes on the cost of purchasing the countdown signals, the County Engineering Department will do the installation. The cost per intersection is \$2,500

for eight countdown units, two per pole. Traffic Safety Officer Franco recommended Fair Lawn Avenue and Pollitt Drive, River Road and Morlot Avenue and then Plaza Road and Berdan Avenue. Subsequent priorities in random order are Fair Lawn Avenue and Chandler Drive, Morlot Avenue and Plaza Road, River Road and Berdan Avenue, River Road and Fair Lawn Avenue (which has been done) and Fair Lawn Avenue and Saddle River Road.

Councilmember Swain asked about the timing. Manager Van Kruijningen stated that the email advised them to contact the County when they are purchasing the equipment and when the heads actually arrive so they can schedule the installation. No further details were given. He cannot proceed until he receives confirmation of funding from CFO Palermo. He recommended installing signals at Fair Lawn Avenue and Pollitt Drive and Fair Lawn Avenue and Saddle River Road.

Councilmember Swain felt the solar powered blinking stop stops were very effective. She thought they should install additional signs at the locations recommended by Traffic Safety Officer Franco. Manager Van Kruijningen believed funding was available. He will place this on a future Work Session agenda.

FIRE PREVENTION FEE INCREASE

Manager Van Kruijningen stated Fire Marshall Bender surveyed surrounding towns regarding their permit fees for tent evaluations and inspections. He read Fire Marshall Bender's email that stated "no municipalities were charging more than \$42." He felt they should increase the fee to \$60 and possibly increase it to \$75 in two years. Attorney Mondello stated that it might not be worth it because it costs hundreds of dollars to amend an ordinance.

Deputy Mayor Dunay suggested keeping the same fee for not-for-profits and increasing the fee for "for profit" companies. Manager Van Kruijningen thought many applicants were homeowners. He will find out and get back to the Council.

SCHEDULING TOUR OF WATER INFRASTRUCTURE

Manager Van Kruijningen stated that Engineer Garrison and Superintendent Neggia can give the Council a tour of the water infrastructure any Saturday in April. They would either have to go in sets of two or sunshine it so they can go together. Engineer Garrison will conduct a tour at the Water Treatment facility and then Superintendent Neggia will do a tour at a Sewer Treatment facility.

There was consensus to schedule the tour of the Water Infrastructure on Saturday, April 26th at 11:00 a.m.

Municipal Clerk/Deputy Manager Kwasniewski will publish a notice of this meeting in the Record.

AUTISM AWARENESS MONTH – LIGHT UP BLUE CAMPAIGN

Deputy Mayor Dunay stated that Autism Awareness Day is April 2nd. Autism Speaks sponsors a "Light it Up Blue" campaign with a number of public buildings, such as the Empire State Building, lighting their buildings with blue lights that night. He felt the Municipal Building should also be lit up in blue and would be willing to donate the funds for the lights. Manager Van Kruijning stated there are three lights located near the pillar by the front steps. Blue LED spotlights cost \$40 for six lights. The lights would be turned on at 4:30 p.m. and left on overnight. Buildings and Grounds could turn the lights off in the morning.

Councilmember Swain asked if there would be sign explaining the meaning behind the blue lights. Deputy Mayor Dunay stated that signage would be provided.

There was consensus to purchase blue lights for the Municipal Building.

WELLNESS PLAN FOR 2015

Councilmember Swain stated they discussed having a wellness plan several years ago. A mobile wellness bus came to Borough Hall so employees could receive comprehensive medical tests, but it never went any further. There was an article in the League of Municipalities about a wellness plan that offers financial incentives such as gift cards to employees who go for checkups. Local governments and taxpayers benefit from a healthier work force. They expect this program to generate savings on health care claims and insurance costs. For every dollar spent on wellness program, medical costs are reduced by \$3.27 and absentee costs by \$2.73.

There was consensus to have Manager Van Kruijning contact IDA regarding a wellness program.

ANNUAL TRUNK OR TREAT

Councilmember Swain stated that the children had a great time but at times it seemed as if the children swarmed the cars. She suggested charging \$1.00 per participant to stem the rush, with the funds going to the food pantry. There were at least 1,000 children. She also suggested holding Trunk or Treat a few days before Halloween, so that children could participate in the community event but also trick or treat with their neighbors. Manager Van Kruijning recommended

having Trunk or Treat on the same day as the Halloween Parade as staff is already present that day. The event would be cancelled if there was inclement weather.

Deputy Mayor Dunay agreed with changing the date so children would be able to walk through their neighborhoods and get some exercise. Councilmember Swain asked what they thought of having tickets. Manager Van Kruijning suggested participants bring an item for the food pantry since there is no charge for the Halloween parade. They would also need to speak to Superintendent Graff because the Recreation Department gives out goody bags and this event might increase the crowd. They could do the parade from 10:00 a.m. to 11:00 a.m. and have Trunk or Treat from 11:30 a.m. to 1:00 p.m.

Deputy Mayor Lefkowitz thought the purpose of Trunk or Treat was to provide a safe alternative to trick or treating. Councilmember Peluso stated the first Trunk or Treat was scheduled because they did not want children walking through neighborhoods hit by Superstorm Sandy. Attendance was lower that year because it was right after the storm and the event was held in two locations. Last year it was hectic. Having the Trunk or Treat event at Memorial will provide an option to parents who do not want their children walking door to door.

Councilmember Swain suggested discussing this at a future Work Session after Manager Van Kruijning has had an opportunity to speak to Superintendent Graff. Deputy Mayor Dunay stated that having the event on a Saturday during the day could either generate more people or fewer people. Municipal Clerk/Deputy Manager Kwasniewski stated that the parade does not attract 1,000 people. Councilmember Peluso stated that some children cannot attend the Halloween parade because of All Sports or other activities. If they have the Trunk or Treat at one time and the parade at another it gives children an option. There was consensus to discuss this at a future Work Session after Manager Van Kruijning speaks with Superintendent Graff.

PERMIT FEES FOR SIGNS

Councilmember Swain stated that the owner of the Rail Yard Tavern informed her that the permit fee to replace a sign cost as much as the actual sign. Manager Van Kruijning stated that their ordinance sets the fee at \$5 per square foot for the surface area of the sign, with a minimum cost of \$115. Councilmember Swain stated that the business owner claimed he paid between \$400 and \$500. Manager Van Kruijning stated that the owner applied for three signs, two of which were 16 inches by 48 inches at a cost of \$115 each. He has not paid the permit fee to install another sign 16 inches by 336 inches, although the sign has already been erected. The amount for all three permits is \$371. He will be following up on this tomorrow.

Councilmember Swain stated that she just wanted to be sure they were business friendly, as she has heard from other professionals such as plumbers who felt their fees were high. Deputy Mayor Dunay stated they could make the minimum number an aggregate so that the minimum total application including all signs applied for at that time is \$215, which would reduce it slightly. Manager Van Kruiningen agreed that \$115 might be high for the smaller signs, but they were only charging \$140 for a sign 28 feet in length. Councilmember Swain stated that she would review this further with Manager Van Kruiningen.

FOOD PANTRY

Manager Van Kruiningen stated that he and Mayor Cosgrove met with a resident who would like to donate \$10,000 to the Borough's food pantry in memory of his mother. The donor is an active member of the Ambulance Corps.

Currently the food pantry is located in a basement supply closet, which needs renovations such as better shelving and lighting. The resident would like the donation to be used towards those renovations. He has also requested a plaque be placed on the door naming the room after his mother and that the Borough run a yearly food drive in her memory on her birthday.

Councilmember Peluso felt the renovations were a good idea. Deputy Mayor Dunay thought it was a great idea but he cautioned that they had to be careful not to set a precedent.

There was consensus to accept the donation for the food pantry.

EMPLOYEE BENEFIT – LIFE INSURANCE

Manager Van Kruiningen stated that New York Life is willing to offer life insurance to fulltime employees at no cost to the Borough. Payments would be made as a payroll deduction from those employees who opted to purchase insurance.

Deputy Mayor Dunay asked if the Borough currently used New York Life for its insurance. Manager Van Kruiningen stated that New York Life approached him as they are now branching outside of the private sector. Attorney Mondello stated there is an exemption for insurance; they do not need to request RFQ's. Manager Van Kruiningen stated that New York Life will make several presentations to employees.

Deputy Mayor Lefkowitz asked if there were any legal ramifications with the Borough picking this company if an employee had a gripe or issue with the company. Attorney Mondello did not foresee any problems.

There was consensus to allow employees the option to purchase additional life insurance through New York Life.

EMPLOYEE RECOGNITION BREAKFAST

Manager Van Kruijning stated that he wanted to hold this breakfast to thank all Borough employees for their overall efforts during this brutal winter. He would hold a two hour breakfast at the Fair Lawn Athletic Club. The Council could be present to extend their thanks. The breakfast would cost approximately \$900 and funds would come out of the Council's budget.

Deputy Mayor Dunay asked if Manager Van Kruijning could obtain a list of streets that have been repaved or have had potholes repaired or get a plan listing upcoming project so they could show residents who complain that progress that is being made. Manager Van Kruijning stated that Superintendent Neggia informed him that they have used 70 or 80 tons of asphalt for pothole repairs. Since they repaired some County roads within the Borough, the County allowed them to acquire up to 50 additional tons of asphalt. During an average winter they go through 25 to 30 tons of asphalt.

Councilmember Swain noticed that many areas have chunks remaining along the curb line. Manager Van Kruijning stated that was the rip up from the snow plows. It will go away when it rains or when the street sweepers are back on the road in April.

There was consensus for Manager Van Kruijning to hold an Employee Recognition Breakfast at the Fair Lawn Athletic Club.

MISCELLANEOUS PUBLIC COMMENTS

Ruth Gormans, 39-37 Sycamore Drive asked if they have gotten any new drivers for the mini bus now that they were increasing the hourly rate. Manager Van Kruijning stated that they were not doing anything until the ordinance increasing the fees was passed. Ms. Gormans suggested reaching out to veterans to see if they would like to drive. Manager Van Kruijning stated that all candidates must have a CDL license that will allow them to transport passengers.

Ms. Gormans asked when the new mini bus program will begin. Manager Van Kruijning stated that once the new bus comes in they will send out notifications. They have not decided when they will be beginning. Ms. Gormans stated that the mini bus schedule is no longer in the Borough calendar and they do not put any notifications on Channel 77. She felt they should advertise the service as many residents do not know it exists.

Councilmember Peluso stated that he agreed they need to do a better job of getting out the word. He encounters many residents who do not know that the Community Center exists and there is free membership for residents. He saw a documentary that veterans who drove a truck in the service cannot get a job back home because they do not have a CDL license. Should any veterans apply for the driver position they should find ways to help them obtain the correct license.

Bernice Katz, 2-22 Saddle River Road felt they should install a traffic light at the Broadway train station because it is unsafe for pedestrians.

She inquired if the Wellness Program was run by a private firm that charged the employees. Manager Van Kruijning stated it was offered through their self insurance. Ms. Katz stated did not think it was necessary to have an Employee Recognition breakfast as employees were paid for doing their job.

She asked the Council to consider designating the former Kinds Dairy property as historical since the farm dated backed to the 1940's. She felt the property should be added to the Historic Preservation list as the barn and house still remain and should be saved.

She stated that the Council should replace the Planner working on the Master Plan as she admitted to being influenced by the conceptual plan presented by Oceanos. She asked what action was being taken to investigate what the residents want. Deputy Mayor Lefkowitz informed her that the Planning Board had not met since her comments were first made.

Ms. Katz stated that the mini bus was wonderful, but residents need to be able to get to more locations. Manager Van Kruijning stated that once the new bus is in service they will be switching to a system in which residents can call in with pick up and drop off locations.

Councilmember Peluso referenced Ms. Katz's comment about the Planner and stated that the Council appoints the members of the Planning Board but the Board makes decisions regarding the Attorney and Planner. Attorney Mondello informed Ms. Katz that he called Ms. Bergailo after her comments that she was influenced by Oceanos. Ms. Bergailo indicated to him that she did not say that and that she would not be unduly influenced by another professional. She has been a Planner for many years and she would not put her professional license and career in jeopardy for one application. He stated that the Mayor and Council did not have the authority to tell the Planning Board to get another Planner. Ms. Katz stated they could check the notes of the Planning Board secretary to see what was said. Attorney Mondello suggested she take that up with the Planning Board.

Councilmember Peluso informed Ms. Katz that past Mayors and Managers have tried for years to get the State to improve the crosswalks on Broadway. The BIC administrator, Don Smartt, recently expressed his frustration at how slow the State has been moving. They will keep pushing.

As far as the breakfast for the Borough employees, they went above and beyond this winter and he felt this was a nice gesture. He felt it was a great way for the Council and the community to say thank you.

Councilmember Swain pointed out that in addition to the bump outs on Broadway, a Hawk system was also supposed to be installed but that was stalled at the State level. She has known Cheryl Bergailo for many years and she finds her to be an ethical, articulate and thorough Planner. She attended the hearing that night and felt Ms. Katz perceived the comments differently from how Ms. Bergailo intended. Deputy Mayor Lefkowitz suggested Ms. Katz attend the next hearing and ask her questions so it can be cleared up. Ms. Katz asked if she could get a copy of the minutes. Attorney Mondello stated that Ms. Katz would have to pay for a transcript on her own. Deputy Mayor Lefkowitz stated that the minutes will be published on the website once they are approved.

CLOSED SESSION RESOLUTION:

Upon motion by Councilmember Swain and a second by Deputy Mayor Dunay, the following closed session resolution was unanimously adopted at 9:25 p.m.

WHEREAS; the Open Public Meeting act of the State of New Jersey permits the public to be excluded from certain matters to be discussed by the Governing Body; and

WHEREAS; the Mayor and Council of the Borough of Fair Lawn desire to discuss Personnel – Fair Lawn Historic Preservation Commission, Seasonal Recycling Employee and Recreational Facilities Review Committee; and

WHEREAS; these matters are ones which permit the exclusion of the public from such discussions; and

WHEREAS; minutes will be taken during this closed session and once the need for confidentiality no longer exists the minutes will be available to the public.

NOW, THEREFORE, BE IT RESOLVED, by the Mayor and Council of the Borough of Fair Lawn that the public be excluded since these matters as set forth above are ones which permit the exclusion of the public from such discussions.

ADJOURNMENT

Upon motion by Councilmember Peluso and a second by Deputy Mayor Dunay, the Work Session was adjourned at 9:55 p.m.

Respectfully submitted,

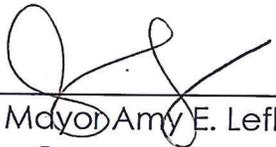

Joanne M. Kwasniewski, RMC/MMC
Municipal Clerk/Deputy Manager

The undersigned have read and approve the foregoing minutes.

Absent

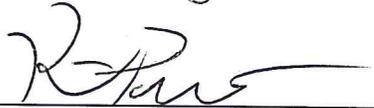

Mayor John Cosgrove

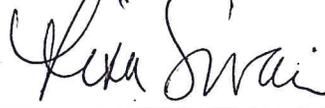

Deputy Mayor Amy E. Lefkowitz

Deputy Mayor Daniel Dunay

Councilmember Kurt Peluso

Councilmember Lisa Swain
