Come Hear And See What
Recommendations For
Improvements To The Fair
Lawn Avenue Corridor Are
Contained In The Plan.

THE FAIR LAWN AVENUE CORRIDOR VISION PLAN

A collaborative strategic planning initiative involving the Borough of Fair Lawn, the Bergen County Economic Development Corporation (BCEDC), the members of the Fair Lawn Economic Development Committee (FLEDC), and NJ TRANSIT and coincides with NJ TRANSIT's ongoing process of encouraging transit-oriented development and economic revitalization where possible, along the existing rail system to increase transit ridership and improve connectivity.

The plan is focused on the Radburn Station Area and along the Fair Lawn Ave Corridor between Route 208 and Abbott Road.

- Hear about the **corridor today**.
- Hear about **what it has the potential to be**.
- Hear a **vision for the future** of the Fair Lawn Avenue Corridor.

**How can the Corridor be revitalized to act as a catalyst for reinvestment?
How can pedestrian safety, vehicular movement, and parking can be improved?
How can the Corridor evolve into a more vibrant local destination?**

Event sponsored by Borough of Fair Lawn and
The Fair Lawn Economic Development Corporation
